EXPERIENCES

Senior Web Development Engineer at Accenture. (Dec 2022 – Present):
Currently assigned to "Banco Galicia", the most important Accenture client in Argentina. Working in an Agile Team, responsible for building and maintaining critical web applications that support the bank's day-to-day operations.
Developing the frontend using Next.js and the backend using Nest.js, following the microservice architecture.

Engineer at Liliana Electrodomesticos company. (Jun 2021 – Dec 2022):
Developer in charge of designing, building, updating, improving, and maintaining a web application created from scratch. Both frontend and backend. An application that is used by hundreds of workers every day, in different areas of the company. Mentoring and supervising two junior internship developers who collaborate with the app.
Automating and improving complex processes and data management for the company, programming in Visual Basics for Applications.

Intern for the Municipality of Rosario. (Mar 2019 - Oct 2020)

Intern at the engineering consulting company "Goldvarg Ingeniería". (Nov 2017 - Mar 2018)

Volunteer in the non-governmental organization "TECHO". (Mar 2018 - Present)

Personal training experience living six months in the United States. (Jan - Jul 2012)
